

Monoblock **MEZABOX-4 LXI**

Monoblock MEZABOX-4 LXI manufactured by Informtest holding is a mobile platform for creating portable measuring systems for various purposes.

The new monoblocks of the AIST family and the 6-slot AXIe monoblock allow developing autonomous devices in the shortest time and at the lowest cost by integrating ready-made modular solutions (the Informtest holding produces more than 50 modular devices in the mezzanine version) for various purposes into single portable hardware software systems in accordance with the requirements of the Customer.

Specifications

Display Specifications: <ul style="list-style-type: none"> capacitive touch screen; screen type - color LCD with LED backlight; screen size - 10.4"; resolution - 1024 × 768 pixels; number of flowers - 16.2 million flowers; nominal contrast - 1000: 1; nominal brightness - 500 cd / m2; viewing angles from above / from below - 88°; left / right viewing angles - 88° 	Processor Specifications: <ul style="list-style-type: none"> processor type - Intel Core i5-4570TE; frequency - 2.7 GHz; number of cores - 2
	The amount of RAM - 4 GB
	Hard Drive - 256 GB SSD
	Installed OS - Windows 7 (32 bit) or higher
	Management - capacitive touch screen
The number of installed mezzanines from 1 to 4	Features of the mezzanine management interface: <ul style="list-style-type: none"> the number of bits of the control bus - 16; the number of bits of the address bus - 5; recording cycle duration - from 160 to 187 ns; minimum reading cycle time 160 ns
